Subject: FW: SRNT - Global pre-conference update

It would be useful for someone who plans to attend the main SRNT meeting also attending this pre-conference meeting. It could help us to know what such a group thinks about the role they want to assign to us (if any) in S&H research. It also would provide a better understanding of who the representatives of the various regulatory and research organizations are who participate in such research efforts.

Does anybody plan to attend the pre-meeting? Gerd, are you considering to attend?

Regards,
Roger
